Summary

This bird-filled tour started from Phulchowki hill. The highlights included Golden-throated Barbet, Darjeeling Woodpecker, two Lesser Racket-tailed Drongos, two Chestnut-crowned Warblers, five species of Laughingthrushes, an excellent view of a Scaly-breasted Cupwing (Wren-Babbler), perched on a rock singing, and a pair of Pied (also known as White-browed) Shrike-Babblers.

The second part of our trip started with the flight to Biratnagar. We had excellent views of the Himalaya and we could see four peaks above 8,000 metres: Sagarmatha (Everest), Lotse, Makalu and Kanchenjunga. We then visited Birju Tal where we found over 20 Cotton Pygmy Geese, two Peasant-tailed Jacana and many varieties of ducks. Also, at the Koshi barrage, we saw about four Gangetic River Dolphins. The highlights at Koshi were a male Bengal Florican, several Swamp Francolins and Bengal Fox.

The last part of our tour was in the Chitwan National Park where we saw the Giant Hornbills, Indian Grassbird, Savana Nightjar and many more bird species. We also enjoyed sightings of a Sloth Bear, 16 Rhinos, and eight Gaur, all in a day.

The weather was variable, with temperatures ranging from 8 to 35°C, and some heavy rain. However, this did not detract from the amazing birdlife and mammals of this beautiful area. In total, we saw 278 species of birds (with another 19 heard only) and 18 mammal species during a great trip.
